

WASHOUTS.

As previously advised we are now at the point where we have no more room, either in time or in ground availability, to have make up games for multiple washouts. The odd one yes but not for a large number. We have very few nights and even fewer night grounds available to play Sunday make ups. As well as we are now into August getting washed out Saturday games made up on Sundays.

Notwithstanding what we have done below or in the past the following policy will now be implemented for all competitions except Premier League 1st Grade and Division One 1st Grades and, to a degree, WPL.

- 1) If no games or less than 60% of the games in a Grade and Division are played then all games in that Grade and Division, including those actually played, will be treated as washouts.
- 2) Where more than 60% or more of games are played in a Grade and Division the overall situation will be assessed on a day to day basis. This would mean we would never have more than one or two games to consider in each Grade and Division. This also does not mean that all will be made up in this circumstance. If it decided we will not or cannot for some reason make up these games an overall washout procedure will be implemented as in (1) above.
- 3) In view of the Promotion/Relegation factor Premier League 1st Grade and Division One 1st Grade games will be given priority on wet days and also will have make up games played when possible.
- 4) In regard to Women's games WPL will be given priority in respect to games on a particular day as well as in respect to make-ups when possible.
